

M

Meridian

HANDMADE IN BRITAIN

Austin

The stylish and sophisticated Austin, oozes character and luxury. Individually tufted deep buttoned back, intricate piping detail and gentle curved arms make this model a must have for any environment.

MADE BY MERIDIAN

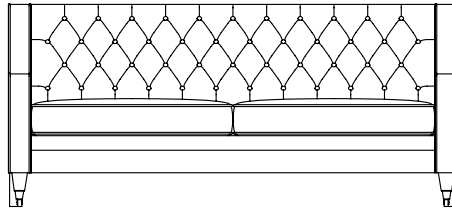

Our CNC Precision cut birch ply frames are fitted with solid timber rails on all load bearing areas, before a generous number of steel serpentine springs are attached using solid steel clips.

Only the finest quality foam grades are used to pad and shape the frame before our hand cut meticulously sewn covers are upholstered by a single upholsterer to ensure ownership pride and care can be taken on each piece.
