

Meridian

HANDMADE IN BRITAIN

Georgia

The comfortable and stylish Georgia comes equipped with generously filled cushioning, sleek piped arms and a solid timber plinth.

MADE BY MERIDIAN

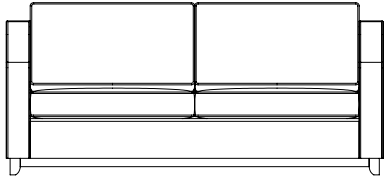

Our CNC Precision cut birch ply frames are fitted with solid timber rails on all load bearing areas, before a generous number of steel serpentine springs are attached using solid steel clips.

Only the finest quality foam grades are used to pad and shape the frame before our hand cut meticulously sewn covers are upholstered by a single upholsterer to ensure ownership pride and care can be taken on each piece.

TECHNICAL INFORMATION

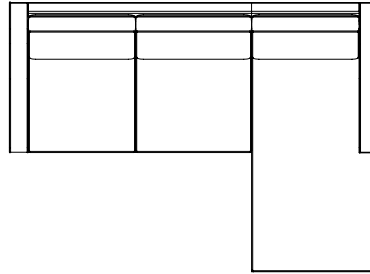

- *Piped cushions, arms and outer back*
- *Detachable timber plinth*
