

Meridian

HANDMADE IN BRITAIN

New Jersey

Simplicity in design coupled with quality and total comfort make the New Jersey a firm favourite. The design can be an inconspicuous addition or a real show stopper with a simple switch of fabric.

MADE BY MERIDIAN

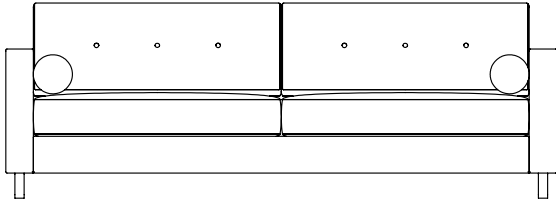

Our CNC Precision cut birch ply frames are fitted with solid timber rails on all load bearing areas, before a generous number of steel serpentine springs are attached using solid steel clips.

Only the finest quality foam grades are used to pad and shape the frame before our hand cut meticulously sewn covers are upholstered by a single upholsterer to ensure ownership pride and care can be taken on each piece.
