

Meridian

HANDMADE IN BRITAIN

Seattle

Our transitionally designed Seattle is crafted with extreme care and attention to detail, from the traditional studding to the delicately tufted backs, this range encompasses the time honoured craft of British Craftsmanship and design.

MADE BY MERIDIAN

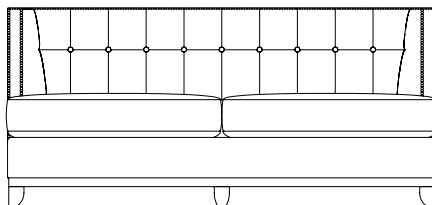

Our CNC Precision cut birch ply frames are fitted with solid timber rails on all load bearing areas, before a generous number of steel serpentine springs are attached using solid steel clips.

Only the finest quality foam grades are used to pad and shape the frame before our hand cut meticulously sewn covers are upholstered by a single upholsterer to ensure ownership pride and care can be taken on each piece.

TECHNICAL INFORMATION

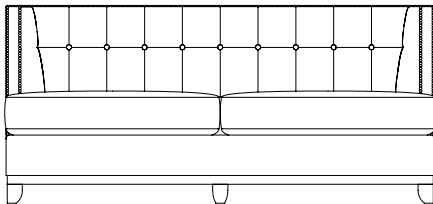

- *Detachable timber plinth*
- *Piped reversible seat cushions*
- *Stud detailing around arm and back border*
